

# Your AI Sustainability Assistant

Powered by the Finnish Green Building Council (FIGBC)

# What is it?

This AI assistant is your one-stop shop for all things related to sustainable building practices in Finland. It is powered by the expertise of the Finnish Green Building Council (FIGBC) and their comprehensive sustainability framework.

## What can it do?

- Answer your questions about sustainability regulations, standards, and best practices in Finland.
- Provide definitions and expert insights on green building concepts and certifications.
- Guide you through the process of achieving green building certification.
- Offer personalized advice on how to make your building more sustainable.
- Generate reports and summaries of your sustainability efforts.
- Connect you with FIGBC experts for further assistance.

# Capabilities

## **Additional features:**

- The AI assistant is available in both English and Finnish.
- It is constantly learning and improving, so you can be sure you are getting the most up-to-date information.
- It is free to use.

## How does it work?

The AI assistant is trained on a massive dataset of information from FIGBC and other reliable sources. It uses this knowledge to provide you with accurate and up-to-date information.

## Who is it designed for?

This AI assistant is for every organisation member of FIGBC who wants to build or operate a more sustainable building in Finland. This includes individuals, businesses, architects, engineers, and construction professionals.

## Benefits of using AI helper

- Save time and money by getting quick access to sustainability information.
- Make better decisions about your building's sustainability performance.
- Reduce your environmental impact and contribute to a more sustainable future.

A photograph of a modern building facade covered in lush green plants, creating a vertical garden effect. The plants are arranged in horizontal layers, with some taller, spiky plants on the upper levels and denser, leafy plants on the lower levels. The building's structure is visible as a series of green, rectangular panels. The sky is a clear, light blue. Overlaid on the center of the image is the text "Get started today! Scan to try it out" in a white, sans-serif font.
